2. eHealth - District Ranking Matrix Based on Performance of all Institutions (except Medical Colleges)

The ranking matrix showcases the performance of districts in providing eHealth services through all institutions (excluding Medical Colleges) based on six different parameters.

These parameters include:

1. Percentage of institutions where the reception module is currently using (except institution started with VPN)

2. Percentage of UHID Visits.

3. Percentage of Doctor Consultations.

4. Percentage of Pharmacy Prescriptions by doctors.

5. Percentage of lab orders by doctors.

6. Percentage of Live Institutions.

Weightage is assigned to the percentages calculated in intervals of 10. The rank is determined based on the sum of these weightages.

The top-performing districts should aim to maintain their positions, while the average and low-performing districts should strive to reach the 'top four' league.

The ranking matrix for the current month, October 2025, along with the previous two months, is provided in the table below.
